

TONY SWIECICKI

PRINCIPAL EXPLORATION ADVISOR

Seismic interpreter/ Geologist with over 25 years worldwide E&D experience. Proven oil and gas finder, generator of quality prospects offshore & onshore. Proficient at developing plays in complex stratigraphic and structural terrains. Extensive experience mapping & risking clastic plays and evaluating reservoir architecture, especially in S.E. Asian fluvio-deltaic and shallow marine settings. Proven team lead/player with excellent communication abilities and presentation skills. Extensive experience of reserves audit and certification.

WORK SKILLS

Geoscience	Extensive recent SE Asian - Australian regional play generation and trend analysis. Reservoir characterisation and reserves audit and certification expertise. Strong background in 3D seismic interpretation, sequence stratigraphy, prospect generation, probabilistic reserves assessment and field evaluation. Areas worked include CuuLong and Nam Con Son Basins, Vietnam, Timor Gap, West Natuna, Indonesia, Gulf of Thailand, Andaman Sea, North Sumatra, Mid Norway, West of Shetlands, Northern North Sea, Offshore Ireland, Alaska, Canadian and American Rockies, Williston Basin, Powder River Basin, Permian Basin, and Southern North Sea.
Information Technology	Proficient user of OpenWorks, , Seisworks, SMT/Kingdom, StratiMagic, Stratworks, Petrosys, Zmap+, Charisma, CPS3, Petrel, Crystal Ball, ArcView. Extensive experience of using computers as an aid to a solid foundation of traditional interpretation.
Business	Experienced skills as a team leader and project coordinator. Successfully operated as freelance consultant since 1996. Ability to get along with, and get the best out of, people, experienced presenter with extensive experience leading multi-cultural, multi-ethnic teams.

CAREER HISTORY

July 2006 - present	Consultant Exploration Advisor, CuuLong JOC, Vietnam. High resolution Sequence stratigraphy. Advisor on field evaluations
Jan. - July 2006	Consultant Exploration Advisor, KNOC, Vietnam. Interpretation of newly acquired 400km ² 3D seismic survey. Advisor on prospect evaluation and ranking. Reserves auditing.
March 2004 - Jan. 2006	Consultant Exploration Advisor, Murphy Sarawak Oil Malaysia. Prospect generation and evaluation. Directly responsible for four successful exploration wells that added 1 TCF recoverable reserves in 12 months.
2002 - 2004	Consultant G&G Co-ordinator, INPEX Masela Ltd. Evaluation leader for giant Abadi Field appraisal and reserves assessment project in Timor Sea. Added over 8 TCF to INPEX planning reserves. Lead seismic interpreter (Stratimagic, Charisma). Led development of 3D geologic model (PETREL).
1997 - 2002	Consultant Exploration Advisor, Conoco Indonesia Inc. Directly responsible for three gas discoveries which added over 700 BCF and 35 MMBO to reserves base. Specialist in prospect generation, portfolio management and reservoir modelling. Specific experience in gas exploration for the West Natuna Gas Project using integrated workstation interpretation, geostatistics (Seisworks, StratiMagic, Stratworks, Zmap+, SigmaView, VoxelGeo, and EarthCube. Project management involving Roxar). Extensive liaison with Gas Certification companies.
1996 - 1997	Consultant Exploration Advisor, Saga Petroleum, Norway. Regional seismic sequence stratigraphic review of Faeroes Basin. Contributed to successful licence application.
1996	Consultant Exploration Advisor, Clyde Petroleum, Indonesia. Evaluated Marathon acreage and generated prospect inventory for three year drilling program with 90% commercial success rate. Proved up c.100 MMBOE.
1994 - 1996	Technical Co-Ordinator, Mid Norway, Amerada Hess Norge. Responsible for Norwegian 15th Round Application, Mid Norway. Specific experience in integrated regional review, 3D seismic interpretation (Charisma).

Tony Swiecicki CAREER HISTORY (continued)

1993 - 1994	Exploration Team Leader-Viking Graben, Amerada Hess Ltd., London. Responsible for seven operated and six non-op blocks, partner relations, TCM/OCM co-ordination. Involved in acquisition of Unocal properties.
1991- 1993	Lead Geologist, West of Shetlands, Amerada Hess, London. Responsible for the discovery of the Solan Field and appraisal of Strathmore. Conducted successful five well drilling programs that proved up over 35 MMBO reserves. Undertook 14th Round Licence Application, West of Shetlands.
1989 - 1990	Lead Geologist, Stafford Equity Redetermination, BP. Detailed evaluation of largest field in North Sea. Led expert submissions on major international equity redetermination. Liaison with UK partners.
1987 - 1989	Senior Geologist, Offshore Areas, BP Thailand. Responsible for all BP's geological evaluations of offshore areas, Thailand. Prospect generation culminated in three well drilling campaign. Gulf of Thailand. Exploration review Andaman Sea/ North Sumatra and offshore Myanmar. Organised fieldwork in peninsular Thailand. Evaluation of Bongpot structure, Pattani Basin, and successful farm-out of B12/27 acreage.
1985 - 1986	Project Geologist, Strategic Planning Group, BP Alaska. Regional strategic basin evaluations from Rockies to Permian Basin. Licence round application Alaska.
1984 - 1985	Review Geologist, Southern North Sea, BP Pet. Dev. Rigsite and ops. geology experience, southern North Sea and Magnus Field.
1981 - 1984	Sequence Stratigrapher, BP Pet. Dev Seismic sequence stratigraphy development.
1980 - 1981	Stratigrapher, Offshore Biostratigraphy Unit, Irish Geol. Survey

OTHER INFORMATION

Personal Details	Age: 53 Nationality: British. Status: Married, 2 children.
Prof. Assoc.	FGS, Chartered Geologist, SEAPEX, IPA, AAPG, PESGB, Technical Committee 29 th IPA Convention.
Education	1976 - 1979 PhD in Geology, Plymouth. 'Stratigraphy of the Chalks of England and the Southern North Sea.' 1971 - 1974 Nottingham University, BSc. Hons. Geology (2.1)
Major Publications	Norzita Mat Fiah, Tony Swiecicki, Rovicky Dwi Putrohari, Steve Courteney and Nick Hoffman Practical Sequence Stratigraphic Framework for the East Balingian Sub-Province, Offshore Sarawak Proceedings, Malaysian Geological Association, Ann. Convention, December 2005 Nagura, H., Suzuki, I., Teramoto, T., Hayashi, Y., Yoshida, T., Bandjarnahor, H.M.P., Kihara, K., Swiecicki, T. and Bird, R., and 2003. The Abadi Gas Field Proceedings, Indonesian Petroleum Association, 29 th Ann. Convention, October 2003, IPA03G-141 Swiecicki, T, Comrie-Smith, N.
